

March 19, 2009

In October we had a prayer request come in for Sherry, a 54 year old women who just had a total hysterectomy and they found and removed a tumor that they found was a fast type of cancer. Her mother Lou Henne is a Christian and believes in the power of prayer. God is able and will heal her as we unite in prayer and ask him.

1 John 5:15 And if we know that he hear us, **whatsoever we ask, we know that we have the petitions that we desired of him.**

We talked to Sherry's mom tonight and after she was put on the prayer list, they did some further tests to determine the correct dosage of medicine and they discovered that the fast acting cancer was no longer there. They put her on chemo anyway and Sherry is feeling great, She acknowledges that it is through prayer that God has intervened.

Praise God Bro Ken

Update March 2013

Sherry is still cancer free and healthy

#####\

In April 2009

we had a prayer request for Lori, who had throat cancer.

In June we had an update that she was done all kemo and radiation treatments and it looked promising.

In sept. we had another request for her as she was down to 80 some lbs from 122.

Yesterday, we got an update that she had her last checkup and there is no cancer and SHE GAINED Weight to the mid 90 lbs.

So God has honored our prayers and she is going to be restored to a full and normal life.

Just remember in our prayers to thank God for his intervention in her life, continue to thank and praise the Lord.

UPDATE March 2013

Lori is healthy and doing great

=====

Bro Ken God Bless All Of You who prayed for me.

Through your prayers & God who always answers prayers of healing to those who believe, great things took place in a very short time.

June 02/08, I had a dot on my left ring finger, it had dry patches and was very itchy.

By June 4th it grew pea size with blisters. I went to a walk in clinic and was told it was scabies and was treated with such.

But in 6 short days it went from pea size to 2 inches long and took up 3/4 of my finger

and had attaches itself to my pinkie. At the hospital all the nurses and 2 doctors cringed at the sight - it was thought to be flesh eating disease. It had taken away all my skin pushing it into a large ridge of puss with raw hamburger looking center that used to be my finger!

I had several calls saying I was in their prayers, the Burning Bush put me on the prayer list and my Uncle Ken, rebuked it in the name of Jesus and asked that the disease be dried up at the root.

WELL - TODAY June 17/08 I went to the doctor and he couldn't believe it. He said that it has reversed itself, Praise Jesus.

The ridge dried up and the skin is starting back-In 6 days!! He said I might always have a scar-But to me it will only be a reminder that through the Power & Grace of God-ALL THINGS ARE POSSIBLE.

Brenda-Anne

UPDATE June 2010 Still good
